No. 19 - 78

TITLE/SIGNIFICANCE:

CHZMAP 5247 Modified Probable Cryogenic Transporter

COMMENT: A CHZMAP 5247, heavy load semitrailer, has been modified with [redacted] 25X1 and control compartment. This modification is a road version of the liquid oxygen/nitrogen railcars which service Rocket Engine Test Facilities (RETF), such as Voronezh RETF, and missile test ranges. This trailer modification may be unique in design for the Semipalatinsk area; however it may be seen at other areas using cryogenic liquids. Please report any suspected sightings to the Advanced Technology Section, SSFD, [redacted] 25X1 (over)
